What Career are you in, and what sort of things does this entail?

Nursery practitioner

What inspired you to go into your chosen career?

Ever since I was 5 years old and my younger brother broke his leg and I knew the play therapist that was working with him, and from my own life experiences it has always given me a passion to work with the younger children and give them something and support them with what i didn't get.

What advice would you give to anyone interested in working in your career area?

to always keep pushing and wanting to learn new things even if that was just learning how to teach a child to understand their name ect.

What do you know now, that you wish you'd known when you were leaving Malbank?

that it's not always about your gcse's, and that it's hard to work and be in the real life of things and how hard it is to become an adult in the world we are in today.
