The challenge is on. See Mr Brownsword in T22 for instructions and an entry pack.
Come on Wolves – where are you?

There's still time to join in the fun — sign up with Mr Brownsword

Playing Pie Factory is very simple. You have to decide **how many pies to produce each week** and **what price to charge for your pies**.

Both of these decisions will influence how many pies you sell and the amount of profit you make.

A key business theory to consider is the relationship between the price of a product and the demand for the product. Understanding this will be the key to success.

You must also consider the costs involved in making the pies (you will be provided with this information). If your cost are greater than the money (revenue) you earn from selling the pies, you will be making a loss!

Good luck and enjoy the opportunity to practice making business decisions that involves risk and reward.
